Sales Mode Analysis

Age Group Analysis

High-level insights on total revenue, customer base, and daily growth metrics. Analyze revenue trends by month and city, and segment performance by age groups.

Sales channel performance breakdown across four modes: Offline Agent, Offline Direct, Online App, and Online Website. Visuals show customer and revenue splits, plus time-based trends. Explore customer behavior by age segment, sales mode preference, policy inclination, and expected settlement values. Spot trends across months and understand which age groups drive business.
